- iii. The recommendation was for a standard condition to address air quality matters that was highlighted in condition 22.
- iv. National and local policy allowed - where it was not sufficiently viable for affordable housing (AH) not to be provided as part of a scheme and the report set out in great detail the reasons that AH was not provided. It was advised that failure to provide AH (or the full amount required by policy) happened on a regular basis on brown field sites that were expensive to develop.
- v. Section(S) 106 contributions were calculated by a pre-set formula

- requested from Kent County Council (KCC) towards education, libraries etc. and the amounts were required to be paid whether or not there was AH on the site.
- vi. Although overlooking from the existing office building was raised as a negative feature, it was not the sole reason that the building was considered to be unlikely to attract future employers.
 - vii. Information related to non designated heritage assets was discussed.
 - viii. Review mechanisms were addressed on pages 41 to 43 of the report.
 - ix. It was not possible to add a condition to limit the amount of parking spaces per person.
 - x. It was confirmed that there were currently 90 parking spaces for 150 workers.
 - xi. it was advised that it was not possible to restrict or control how people used their parking space.
 - xii. A suggestion was made to amend condition 17 so that it that it stated that the screens on the balconies had to be a minimum of 1.7 metres to avoid overlooking, this was permitted.
 - xiii. It was not possible to control how lease holders use their flats, nor require flats to be rented or not, nor or the nature of their tenancies.
 - xiv. The emerging standards for parking of residents was based on the most up to date evidence available.
 - xv. Officers considered the benefits of the development outweighed the non-designated heritage asset on site.
 - xvi. Pages 37 and 38 of the report addressed the KCC Kent Design Guide parking standards that the development adhered to which met the emerging standards.
 - xvii. The applicants transport assessment worked on daily visits and that was not discounted over weekend days.
 - xviii. Officers and Members discussed the Section 106 contributions in detail to gain clarity and understanding of its allocation. Officers explained that NHS and KCC had assessed the needs in the area and had identified funding requirements for S106 and the funds released can only be used for the agreed purpose.

Matters of clarification by Officers and Committee Members' questions to Officers included:

- i. Paragraph 2.01 of the report outlined the proposed permitted uses for the property and condition 3 reinforced the restrictions.
- ii. Given that the Council remained the freeholder of the land and the prominent location, it was stated that it would be easy to know if the property was used for any purposes that were excluded from this proposed permission.
- iii. If the building remained in the Council ownership it was advised that any further planning applications in respect of it would come to Planning Committee.
- iv. Under Kent County Council (KCC) Highways recommendations, it was advised that services such as a creche and medical centre were excluded as the location was in an area with traffic restrictions and such uses tend to have a higher degree of pick ups/drop offs.
