

## Update Report

### Recommendation:

That the report be noted

### 1. INTRODUCTION

- 1.1 This report provides an update on matters that have previously been subject to consideration by the Joint Transportation Board and where there has been substantive progress or changes to note.
- 1.2 Any outstanding matters that are pending will not usually be included in this report but do continue to be monitored separately and may be subject to a report or inclusion in an Update Report on a future date.
- 1.3 Any items where a decision is required will be subject to a full report.

### 2. UPDATES

Subject	Update
<b>Pedestrian Crossing on Langton Road</b> Crossing to complete pedestrian/cycle route from Rusthall to The Pantiles	KCC Officers have sent an email to Rusthall Parish Council and Cllr Rankin summarising next steps. Pedestrian count survey proposed, as part of survey investigations.

<p><b>Reporting of Performance Indicators</b></p>	<p>Simon Jones, Director of HT&amp;W has advised we do not report at a district level on performance in this manner. We already have in place more than sufficient performance and contract monitoring and this information is publicly available. Each quarter a Performance Monitoring report is taken to the Environment and Transport Cabinet Committee (ETCC) and this is published on the council website.</p>

Please find below the link that will direct you to the minutes and reports of the last Environment and Transport Cabinet Committee on 28 November 2018. The Performance Dashboard is Item No.130:

Customers who raise an online enquiry can track the progress online and we encourage this as being the best way to report any highway faults. In the event, that a customer has a problem, KCC has a complaints process that should be used where appropriate.

Our road casualty reduction strategy and delivery action plan are available on our website:
