## **REASONS FOR CURRENT UNDERPERFORMANCE**

This fell below the target due to the significant number of Section 106 agreements completed and permissions issued as well as some longstanding applications that needed to go to Planning Committee compared to those major applications dealt with under delegated powers.

This is considered to be part of the natural variation of major application timescales and not indicative of a particular trend.

## **PROPOSED ACTIONS TO CORRECT UNDERPERFORMANCE (OR REASONS WHY NO ACTION NECESSARY)**

No action required as natural variation of major application timescales.
