

Parish Council Highway Improvement Plans Update

Parish Councils are able to request and fund their own highway improvements to address local concerns that would not otherwise meet Kent County Council's intervention criteria. Parish Councils can highlight any non-maintenance issue they would like to address via their Highway Improvement Plan (HIP), which will be reviewed by KCC officers on an annual basis. Following this review, KCC will make suggestions as to what engineering measures may be appropriate. There is no dedicated budget to install items identified on the parish HIPs, but KCC can work with the parish to install small scale signing and lining improvements, or larger schemes which the parish may choose to fund themselves.

The following table details when a (HIP) was last received from each parish council. If a parish name is not shown, it means no HIP has been received over the past twelve months. This list is up to date as of 20/09/2022.
