

Under Performing Indicator Recovery Plan

2022/23 Quarter Two

Indicator Name

Processing of planning applications: Major applications

Current Performance

Target: 65%

Performance: 56%

Historic Performance

	Processing of major planning applications within time				
Column1	18/19	19/20	20/21	21/22	22/23
Q1	71.00%	60%	67%	70%	65%
Q2	79.00%	71%	57.14%	88%	56%
Q3	58.00%	47%	85%	72%	
Q4	65.00%	56%	54%	69%	

Reasons for Current Under Performance

This fell below the target due to some Section 106 agreements being completed and permissions issued as well as some longstanding applications that needed amendments following consultee comments compared to those major applications dealt with under delegated powers.

This is part of the natural variation of major application timescales and not indicative of a particular trend.

Actions to Improve Under Performance

No action required as natural variation of major application timescales.
