

## Appendix C

No.	Contribution
1	I support the proposals for Brenchley and Matfield's polling stations to remain unchanged
2	<p>I live in Rusthall and i have read the new boundary changes which will merge it with Speldhurst making it one large ward Rusthall and Speldhurst . This seems sensible. However the boundary of this new ward seems to go long the A264 which is the Langton Road. This then cuts the Parochial Parish of Rusthall- St Paul's church of from its Village and its war memorial of those who fell in both world wars and later conflicts of the village and community and puts them in the new Culverden West ward. It also cuts off Tea Garden lane - postal address Rusthall and Happy Valley a local area of outstanding natural beauty in Rusthall and again puts them in Culverden West.</p> <p>There is a second road that runs parallel with the A264 and would it be possible if the boundary could be moved to there between Culverden West and Rusthall and Speldhurst wards - this would then place St Paul's Church. Rusthall, it's churchyard and war memorial and the places i have mentioned back in the ward of Rusthall. I think local residents would be much happier with this.</p> <p>Kind regards [NAME REDACTED]</p>
3	Given the difficulty of getting from Blackhurst Lane and Sandown park, especially for older people, to Sherwood I would recommend an additional polling station at Skinners Kent Academy.
4	<p>JA polling district should be called Five Oak Green ( or at the very least Five Oak Green and Capel) to reflect where the vast majority of voters there live.</p> <p>Suggest both sides of Sherenden Road are in the Tudeley polling district as northern end of the road is a long distance from Capel Village Hall.</p>
